

QUATTRO IF PRO

Quattro IF is a 4 channel professional electrotherapy unit. This professional clinical interferential stimulator unit has many features found on much more expensive electrotherapy units featuring; Symmetrical Balanced Sine Wave Technology, 4 channels and 2 timers, this unit allows you to treat 2 patients independently or at the same time.

- **Four Channel Clinical IF**
- **Channel: Four Isolated Channels**
- **Pulse intensity: Adjustable 0-70mA Peak into 500 Ohm Load Each Channel, Constant Current**
- **Carrier Frequency: 4000Hz Fixed (CH1 and CH3)**
- **Modulating Frequency: 4004-4160Hz Adjustable (CH2 and CH4)**
- **Modes: Constant Mode: 4-160bps, Adjustable; Auto Sweep: 80-145 bps, 4-45 bps, 4-Set bps; Frequency Shift: 1/1 Abruptly Shift, 6/6 Abruptly Shift, 6/6 Ramped, 10/10 Abruptly Shift, 10/10 Ramped**
- **Sweep Time: 15 Seconds**
- **Frequency Shift Percentage: Frequency Shifts From 30% Below Set Frequency to 60% Above and Return to 30% Below Set.**
- **Interference Pulse Freq: 4-160 bps, Adjustable 4/bps/step**
- **Pulse Duration 125us Maximum**
- **Wave Form: Symmetrical Balanced Sine Wave**
- **Patient Compliance Meter: Shows the Treatment Times**
- **Patient Lock: Prevents the Patient From Changing Any of the Set Parameters by The Physician/Therapist**
- **Power Source: AC Adapter**
- **1 Year Manufacturer Warranty**
- **Includes: Unit, AC Adapter, 2 Packages of Self-Adhesive Electrodes, 4 Lead Wires, Instruction Manual**

5 or 10 foot replacement Lead Wires can be purchased separately
